Laboratory Exercise #6: CSS Selectors
CMSC 3 – Introduction to Web Design
1st Sem AY 2026-2027

Part 1

Base Version Selectors.html

Element Selector

Class Selector

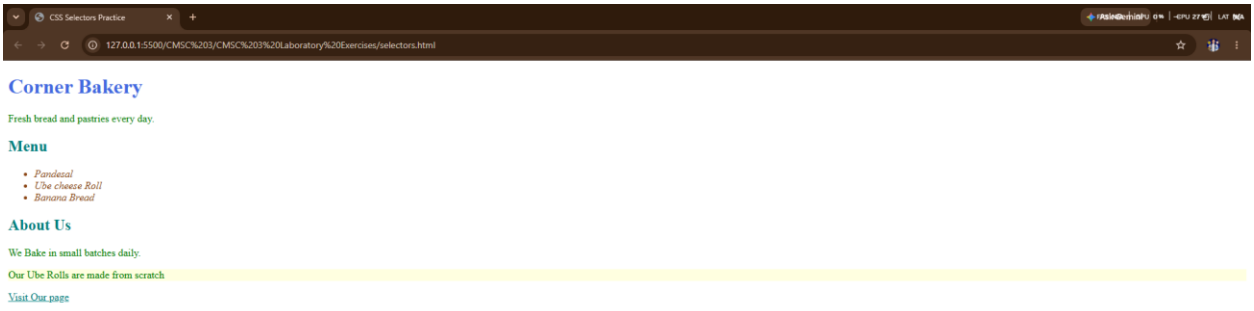

ID Selector

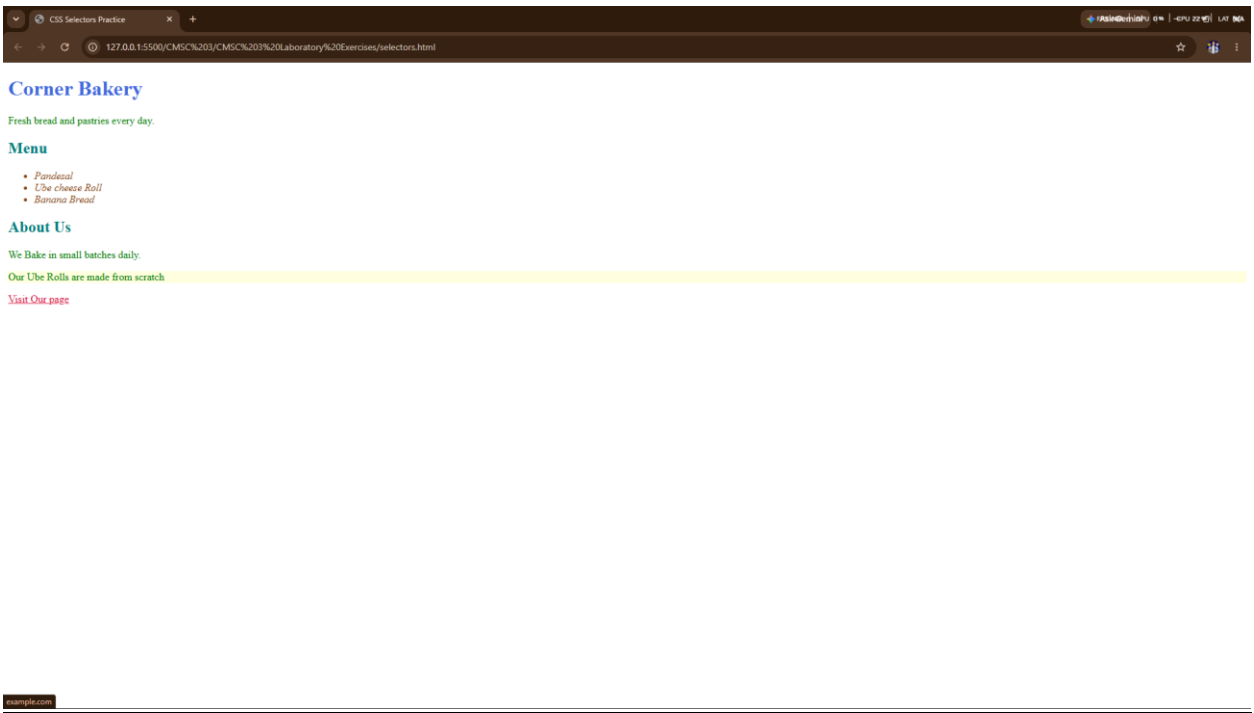

Group Selector

Descendant Selector

Element And Class Combined

Pseudo-class Selector

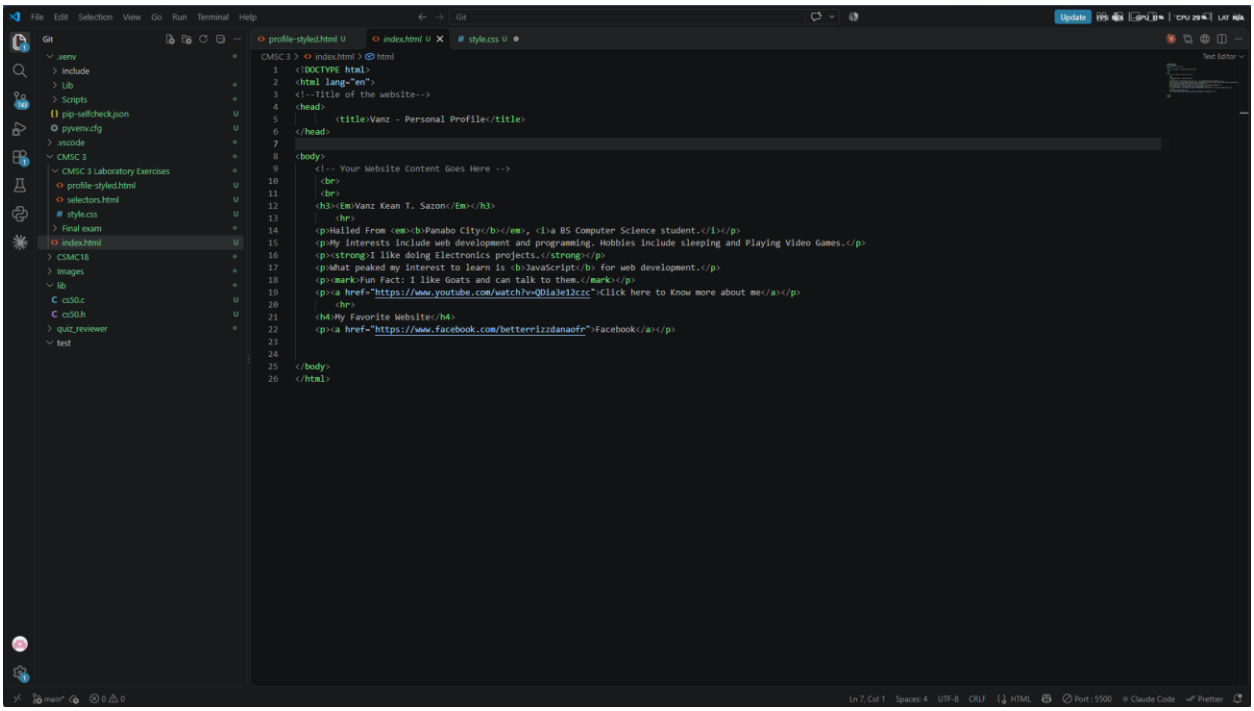

1 An element selector affects all HTML elements of a specific type, such as p, which applies styles to all paragraphs. A class selector, written with a period (.), affects all elements that share the same class name, while an ID selector, written with a hashtag (#), targets a specific element with a unique ID. The main difference is that element selectors target elements by type, class selectors target elements by their shared class, and ID selectors target a particular element.

2. When I applied .special, it affected both the <li> and <p> elements because they shared the same class. However, p.special only affected the <p> element with the class special, while the <li> element remained unchanged.

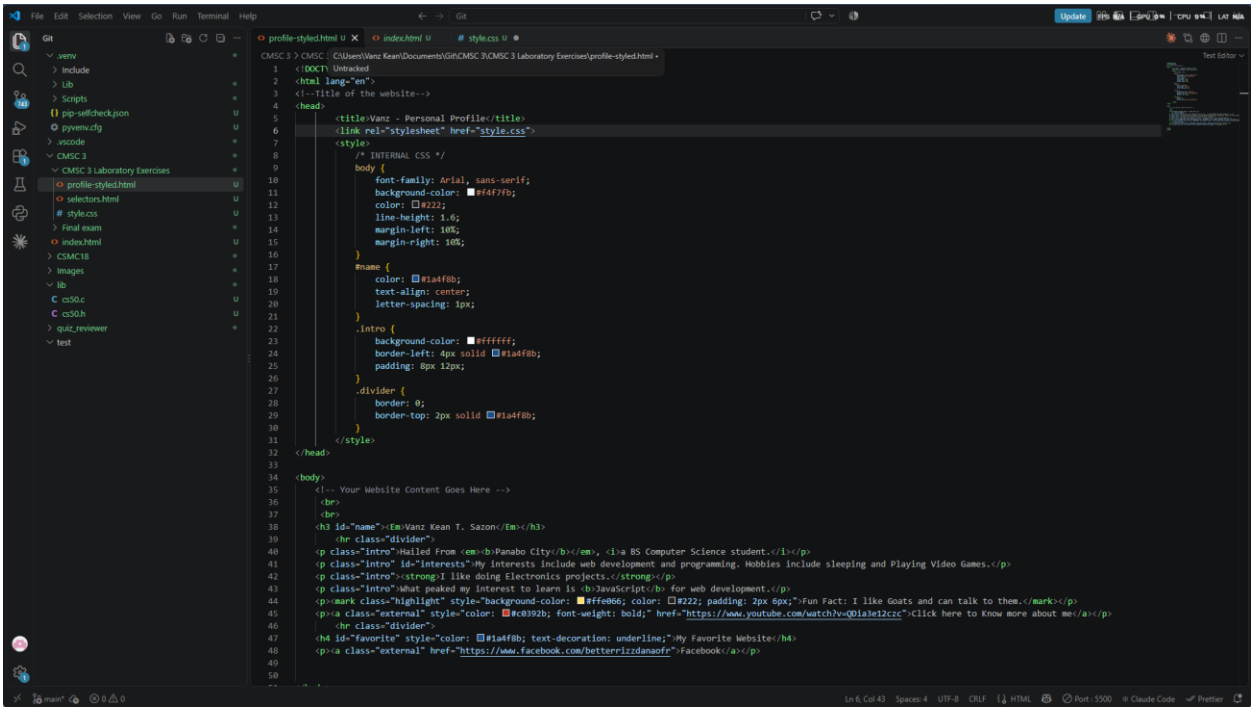

3. The p selector affected all paragraphs on the page, regardless of where they were located. In contrast, #about p affected only the paragraphs inside the element with the ID about, allowing specific paragraphs to be styled without affecting the others.

4. When I moved my mouse over the link and menu items, their appearance changed according to the CSS hover styles. The colon (:) in a:hover represents a pseudo-class that applies styles when the mouse pointer is over a link.

Source code from Laboratory Activity 5

Profile-styled.Html with Stylesheet Laboratory Activity 6

```
/* EXTERNAL CSS - flat and simple, green tone */
/* Kept from internal/inline CSS: blue name, yellow fun fact, red YouTube link */

/* Element selectors */
body {
  font-size: 16px;
  background-color: #f1f6f2 !important;   /* overrides internal blue-gray background */
}

p {
  margin-top: 12px;
  margin-bottom: 12px;
}

b,
strong {
  color: #2e5d34;
}

em,
i {
  color: #4a7c59;
}
```

```css
/* ID selectors */
#interests {
    background-color: #e3efe5;
    border-left-color: #4a7c59 !important;
}

#favorite {
    color: #2e5d34 !important;              /* overrides inline blue */
    text-decoration: none !important;       /* overrides inline underline */
    border-bottom: 2px solid #4a7c59;
}

/* Class selectors */
.intro {
    border-left-color: #4a7c59 !important;  /* overrides internal blue border */
}

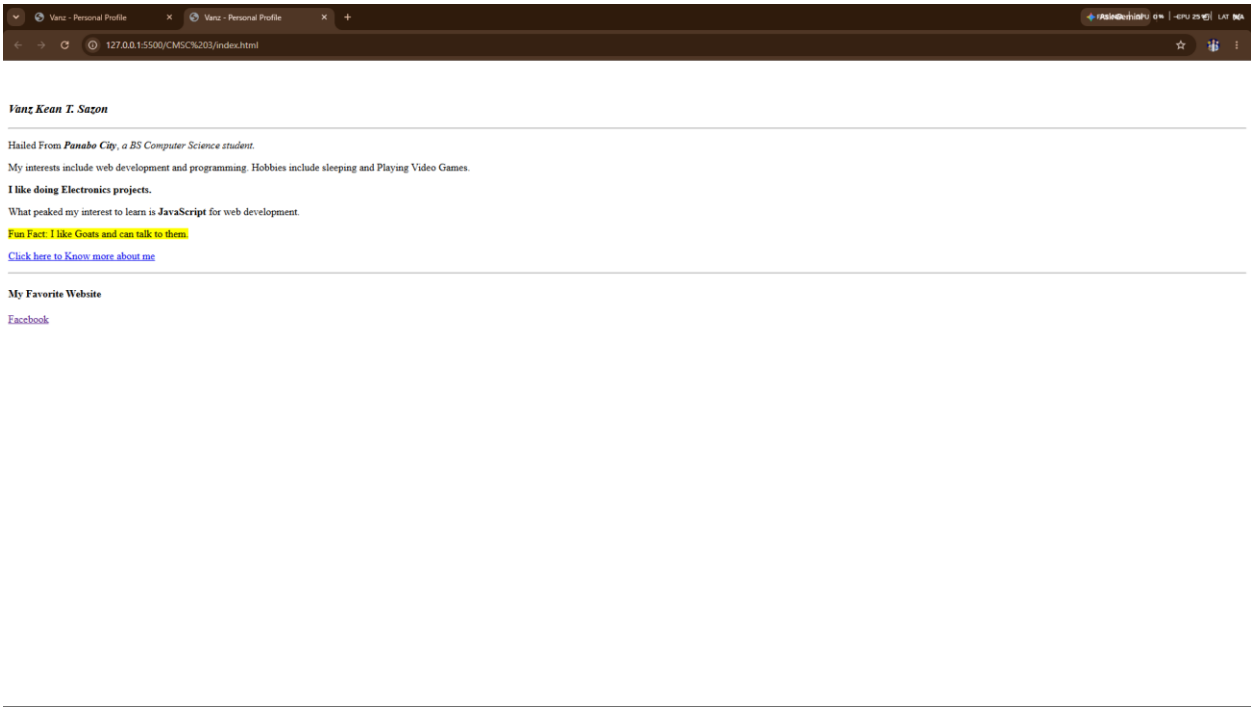

.divider {
    border-top-color: #4a7c59 !important;   /* overrides internal blue line */
}

.external {
    color: #2e5d34;                         /* Facebook link; YouTube keeps its inline red */
    text-decoration: none;
    border-bottom: 1px solid #4a7c59;
}

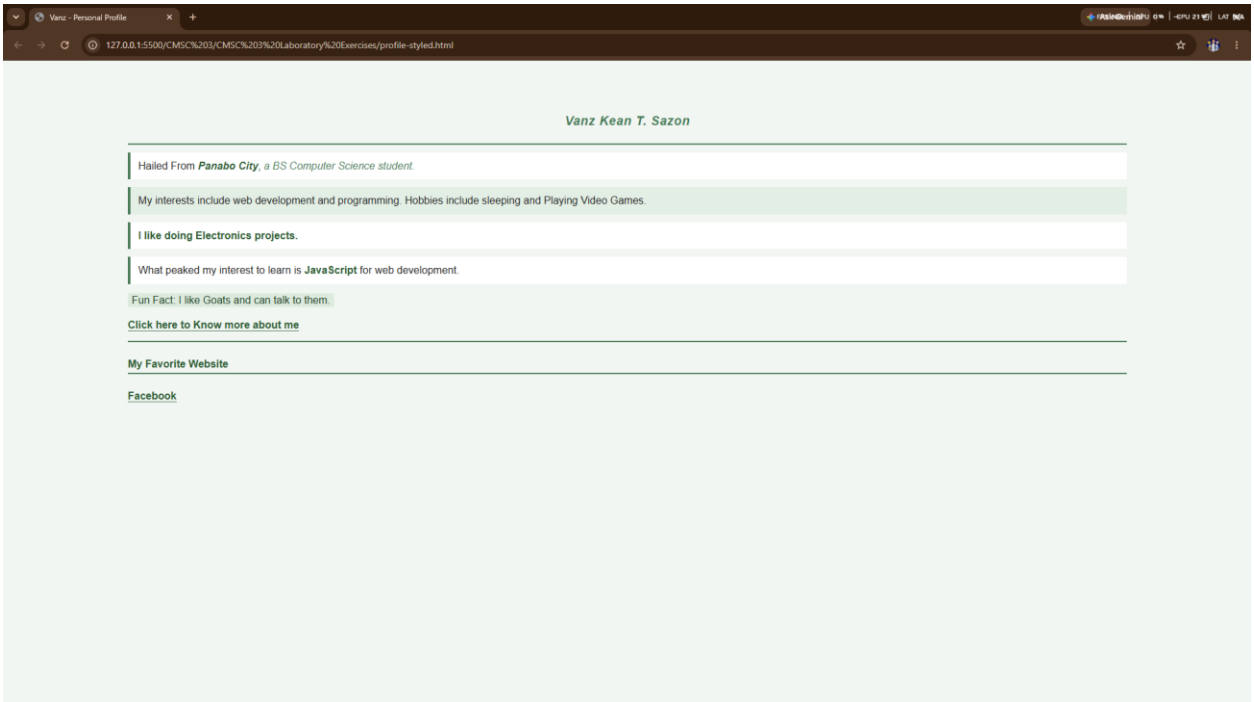

/* Pseudo-class selector */
.external:hover {
    background-color: #e3efe5;
}

/* Attribute selector */
a[href*="facebook"] {
    font-weight: bold;
}

/* Pseudo-element selector */
::selection {
    background-color: #c8dfcc;
    color: #1f3d25;
}
```
